

NIUE Island is a big flat rock in between Tonga and the Cook Islands, only twice as big! With tons of jungle trails, bike tracks, caves, caverns and chasms to explore and gin-clear waters to swim and snorkel. There is much to love about this destination.

But that's just part of the deal, the best part is TWO crazy- fun cycle events to participate in:

Join us for a fabulous week of Cycle events and outdoor activity on the World's largest raised coral atoll. We'll be biking, hiking and snorkelling our way round this Pacific paradise enjoying all this little 'Rock' can offer in a week. You'll love it!!

The highlights of course will be **RIDE THE ROCK** – a bike rally with 5 x 8km speed stages through bush track, riders departing at 1 minute intervals at each stage. Race against the clock, the heat and your mates! **ROUND THE ROCK**- a 60km sprint around the outer island ring road – a sightseeing tour in disguise! These race are low-key-island-style events unique to Niue.
